## FOR LENT

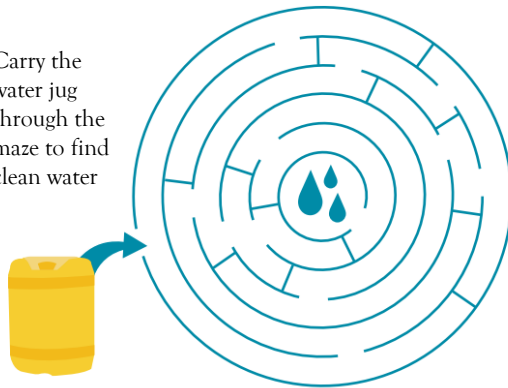

**Show Us** is the at home Lenten resource that have been adapted from the congregational resources we are using this Lent. This resource, published by MennoMedia is available online at [www.commonword.ca](http://www.commonword.ca), or there are a few printed copies available in the foyer.

Water was not piped into houses in Bible times. Instead everyone went to a dam or well to collect water and take it home for drinking, cooking, bathing and other necessities. Each day people gathered around wells and collected water!

Today, around the world, one in 10 people don't have access to clean, safe water. Women and girls spend hours every day walking to collect water to drink or use for cooking. And farmers lose crops when they can't access water for irrigation.

With your support, MCC works with local partners to make sure people have access to **clean water** closer to their homes, both today and in the future.

Carry the water jug through the maze to find clean water
